Logic Problem #5

Use the table to help you solve the logic problem. Each square represents a possible answer. Follow the rows and columns to find the correct combination. Draw a dot in a square for the answer where the vertical and horizontal squares meet. Draw an "x" in a square that isn't the answer.

	Bagel	Toast	Biscuit	Muffin	Jelly	Peanut Butter	Cream Cheese	Butter
Mom								
Dad								
Joshua								
Jessica								
Jelly								
Peanut Butter								
Cream Cheese								
Butter								

The Tackart family went out to breakfast: Mom, dad, Joshua and Jessica. They each got a side with their meal: toast, a muffin, bagel and biscuit. Each family member put something different on their side: butter, cream cheese, jelly and peanut butter. Use the clues to find out which family member ate which side and topping.

- Joshua enjoyed peanut butter as his topping.
- Mom did not have a muffin or biscuit as her side but she did have cream cheese.
- Dad ate a muffin but did not have butter as the topping.
- The person who had a biscuit, had butter as the topping.
- The toast did not have cream cheese.

TO A DEGREE

Five students at Camford University sat their final degree examinations in different subjects. From the information given below, can you name the college at which each was enrolled, the subject in which he or she took a degree and the class of degree each obtained?

Clues

1 One girl was studying Archaeology; the other was at Charterhouse College.

2 The King Alfred's student, who obtained a first, was not Gordon, the Classics student.

3 Lawrence's degree was of a higher class than that of the Maths student, who was not awarded the pass degree.

4 The third-class degree was attained in Economics.

5 The biochemist studied at Canterbury College.

6 Sally's degree was not as good as that obtained by the student from St Mark's.

	Centerbury	Charterhouse	King Alfred's	Prince of Wales	St Mark's	Archaeology	Biochemistry	Classics	Economics	Mathematics	First	Upper second	Lower second	Third	Pass
